FABRIC REQUIREMENTS

We strongly suggest that you consult your Ferrell Mittman representative or the factory for assistance in determining yardage if you add a skirt to a non-skirted piece, change the style of the standard skirt on a piece, or require custom treatments or custom application of your fabric.

All yardage requirements shown in the price list are based on 54" plain goods. If the fabric or pattern on the fabric is LESS THAN 54" WIDE, and/or has a repeat of more than 2", please increase the yardage requirements by the indicated percentage.

NOTE: All fabric patterns are cut to match vertically and horizontally. Be sure to add vertical and horizontal repeats. (EXAMPLE: 8" vertical + 14" horizontal = 22" total repeat. A 54" wide fabric with 22" total repeat would require 20% additional yardage).

Fabric OR Pattern Width	Plain Fabric	3"-14" V+H Repeat	15"-19" V+H Repeat	20"-27" V+H Repeat	28"-36" V+H Repeat	37"-45" V+H Repeat	46"-54" V+H Repeat
54"	0%	10%	15%	20%	25%	30%	35%
52"	10%	20%	25%	30%	35%	40%	45%
50"	10%	20%	25%	30%	35%	40%	45%
48"	15%	25%	30%	35%	40%	45%	50%
45"	20%	30%	35%	40%	45%	50%	55%
36"	50%	60%	65%	70%	75%	80%	85%

If Ferrell Mittman is to quilt your fabric, add an additional 15% to total yardage requirements.

LEATHER: Multiply fabric yardage by 18 to compute leather square footage requirements (A 6 yard fabric requirement would necessitate 108 sq. ft. of leather).

We have done our best to estimate actual yardage requirements, and to minimize the yardage required to cover your pieces. However, certain patterns, when placed on certain pieces, may require additional yardage due to centering or matching for best aesthetic appeal. CONSEQUENTLY, THE ABOVE CHART MUST BE CONSIDERED AN ESTIMATE ONLY. FERRELL MITTMAN IS NOT RESPONSIBLE IF ADDITIONAL YARDAGE IS REQUIRED. Please feel free to consult the factory for assistance in determining yardage.

BACKING REQUIREMENTS

1. All chenille fabric with any pile on the reverse side requires backing to prevent stretching and to stop the cushion fabric from rolling on the cushion.
2. Taffetas and silk fabrics require light-knit backing to prevent upholstery tacks and sewing needles from causing runs in the fabric. However, the backing process may cause plaids or horizontal stripes to become askew.
3. All loosely woven fabrics require knit backing to prevent the padding from working its way through the fabric.
4. Fabrics with a high level of stretch require knit or spray backing to retain pattern consistency when stretched.
5. Sheer fabric requires knit backing to avoid undesired wrinkles in the fabric.

If you sign and date below, it will be our pleasure to have your fabric backed immediately upon inspection; at our discretion. This can cut your lead-time by days or even weeks. The cost is \$16/yard NET, including shipping and handling. (\$150 NET minimum per fabric) This will be added to your order and noted on your factory acknowledgement.
